FARMERS INSURANCE GROUP SHOWS SUPPORT OF CAPA Nation's 3rd Largest Insurance Company States Need for Quality

WASHINGTON, DC – The Certified Automotive Parts Association announces that Farmers Insurance Group of Los Angeles, California has shown its support of CAPA through a financial contribution to the non-profit organization.

The Farmers Insurance Group® of Companies is the nation's third-largest Personal Lines Property & Casualty insurance group. Doing business in 41 states, Farmers provides services to more than 10 million households.

“Farmers is a welcome addition to the list of CAPA supporters,” said Jack Gillis, executive director of the non-profit association. “As one of the original founders of CAPA they recognize the value that the CAPA program brings to the entire collision repair industry by offering a high quality alternative to high-priced car company crash parts.”

The Certified Automotive Parts Association, founded in 1987, is the nation's only independent, non-profit, third party crash parts quality certification organization. CAPA certification identifies, for both consumers and the industry, those parts that meet our high quality standards for fit, form, finish, material content and corrosion resistance. For more information see www.CAPAcertified.org.
