CAPA BOARD PRESIDENT TO LEAD AFTERMARKET PARTS FORUM AT NACE

Former ASA Chair, Bob Anderson, Will Be Moderating a Repairer Discussion of Part Quality Certification

Las Vegas – Bob Anderson, owner of Anderson’s Automotive Services in Sheffield, Ohio and Chairman of the Board of the Certified Automotive Parts Association (CAPA), will be leading the Parts Certification Early Bird Roundtable session to be held on Saturday, November 4, from 7:00AM to 8:00AM, in the Islander F Ballroom of the Mandalay Bay Convention Center.

Issues to be discussed in the meeting will include:

- Competition in the marketplace
- Reduction of expense to the consumer while providing quality parts
- Current and potential quality standards for aftermarket and recyclable parts
- Latest developments in aftermarket crash parts

“This is a great opportunity for collision repair professionals from around the country to discuss issues that affect their daily lives and bottom lines,” said Anderson, “and I encourage all of my colleagues to attend and participate.” The session is available to all NACE attendees at no charge. Because of the early start time, attendees will be eligible to win one of two certificates for \$500 in parts from Keystone and LKQ/Action Crash Parts.

The Certified Automotive Parts Association, founded in 1987, is the nation’s only independent, non-profit, third party crash parts quality certification organization. CAPA certification identifies, for both consumers and the industry, those parts that meet our high quality standards for fit, form, finish, material content and corrosion resistance. For more information see www.CAPAcertified.org.
